

Appl. No. 10/051,307

**Amendments to the Claims**

Claims 1-15 (Canceled).

16. (Previously presented) An isolated polynucleotide having the nucleotide sequence shown in SEQ ID NO.:1..

17. (Canceled)

18. (Previously presented) An isolated polynucleotide comprising one of, SEQ ID NO.: 1, SEQ ID NO.: 2 and SEQ ID NO.: 3.

19. (Currently amended) A recombinant gene polynucleotide comprising the isolated polynucleotide of claim 18 and a coding sequence encoding a product other than the potato proteinase inhibitor 1 gene product.

20. (Previously presented) A vector comprising the polynucleotide of claim 18.

21. (Currently amended) A transgenic plant cell comprising the polynucleotide of claim 18.

22. (Previously presented) A transgenic plant comprising the polynucleotide of claim 18.

Appl. No. 10/051,307

23. (Previously presented) A method of producing a gene product of interest comprising:

constructing a recombinant molecule comprising a promoter operably linked to a coding sequence encoding the gene product of interest, the promoter comprising a member of the group consisting of SEQ ID NO.: 1, SEQ ID NO.: 2, and SEQ ID NO.: 3;

transforming a plant cell with the recombinant molecule; and

expressing the gene product of interest in the plant cell.
